DETAILED ACTION

Claim Rejections - 35 U.S.C. § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

2. Claims 1-4, 6-8, 10-14, 16-18 and 20- 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Suzuki et al(5,965,655).

As to claims 1-4, 6-8, 10-14, 16-28 and 20- 22 , Suzuki et al teach a method for controlling a terminal(1100a or 1100b or 2100) on a communication system comprising the steps of utilizing an automated set of operations(operation program in terminals) to generate information representative of a first state machine(1100a); and a second state machine(1100b) for controlling a first set of labels for soft-label keys(1A-1D)(Japanese characters) of the first terminal with a first user and a second set of labels for soft-label keys(1A-1D)(English characters) (see figures 2-4D, 5-9; 24, 25, 28; column 4, lines 35-68; columns 5-7; column 8, lines 1-5 and column 28, lines 15-39).

Art Unit: 2673

As to claims 11 and 22, Suzuki et al teach a memory(1109 or 1219) for storing at least a portion of information(see figures 26, 27 and column 24, lines 10-15 and lines 41-43).

As to claims 8 and 18, Suzuki et al teach a method for generating different set of operations for different state machine(see figures 3, 25).

As to claims 10 and 20-21, Suzuki et al teach the set of operations are implemented at least in part in software associated with a switch of the system(see figures 24-26; column 23, lines 27-68 and column 24, lines 1-20).

Allowable Subject Matter

3. Claims 5 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed on April 18, 2002 have been fully considered but they are not persuasive. .

Art Unit: 2673

Applicants argue that Suzuki et al do not teach a first and second state machines produce different soft-labeled key displays for the respective first and second terminals on page 5. The examiner disagrees with that since Suzuki et al teach such feature(see column 28, lines 35-39).

Applicants argue Suzuki does not teach a control table specifying a set of label identifiers for each of at least a subset of the plurality of states of the terminal, and a label table specifying, for each of at least a subset of the labels identified by a given one of the label identifiers, a character string corresponding to the label, a feature identifier associated with the label, and presentation attribute on page 6. The examiner disagrees with that since Suzuki teaches a control table(see figures 5-9) specifying a set of label identifiers(MEMORY CALL, RE-DIAL, AND AUX.FUNCTION) for each of at least a subset of the plurality of states of the terminal(MEMORY CALL STATE, RETURN STATE), and a label table specifying, for each of at least a subset of the labels(e.g. CALL, RETURN) identified by a given one of the label identifiers(RE-DIAL), a character string(RE-DIAL) corresponding to the label, a feature identifier associated with the label, and presentation attribute(see figures 5-9 and column 28, lines 15-39).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2673

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
